CANCER COALITION

2018 WPCD Campaign

"I think what we have developed into is amazing. I am honoured to be a part of this campaign. I feel that this is **the best year**, **by far**. We truly represented **the global coalition that we are**, **through the use of videos and graphics** that were translated in so many languages and visual representations from around the world. Truly impressive." (*Anonymous WPCD survey feedback*)

"It's very inspiring and heart-warming to follow and see all the activities and energy around the world, thanks to your work. I hope we may see some **breakthrough in early detection and treatments soon.** *Pernilla Askenbom, Palema (Sweden)* "The webinars were both very informative and we're so excited to have so much material to work with!! As a smaller organization we would not have had the resources to prepare all of this."

- On the ground review reveals certain posts are more popular than others:
 - "Check Engine" video was extensively posted/shared
 - Posts with metrics were popular
 - Symptoms and risks assets were also popular
 - #WPCD and #DemandBetter got good use
- Some members didn't use any of the assets
- Customization of assets into 'montages'
- Social media training (summer 2019)
- Steering & WPCD Committee minimum commitment to share a single post on the day as part of the Coalition
