

# Hello pancreas!

## WORLD PANCREATIC CANCER DAY<sup>SM</sup>

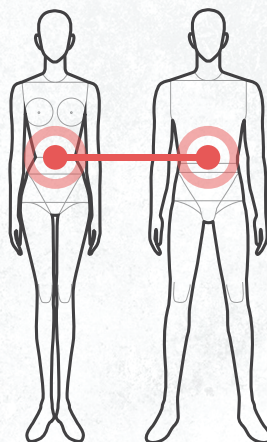

**16 NOV 2023**

**Hi,**

Most people  
don't know much  
about me.

But I'm one of  
your body's  
most important  
organs.

I'm located right  
in the middle of  
all the action and  
I play 2 big roles  
in digestion...

First, I make enzymes  
that help break down  
food so your body can  
absorb the nutrients.

Second,  
I make hormones,  
including insulin,  
which control  
sugar levels in  
your blood.
